The new measure is being taken to encourage undocumented migrant workers or overstayed foreign nationals to get tested and then treated at a time, especially in Wanhua District

1. Project Name: Get tested and then treated project for foreign nationals in Wanhua District.
2. Object: Foreign nationals who have been in and out of Wanhua District or surrounding areas between April 21th and May 14th.
3. Measure: The test is free, and the case will not be reported and penalty-free.
4. Date: From now until June 8th (Depending on the situation, the CECC will decide whether to extend.)
5. Policy: From now until June 8th (Depending on the situation, the CECC will decide whether to extend), every migrant workers or overstayed foreign nationals who have been in and out of Wanhua District or surrounding areas between April 21th and May 14th should get tested. Taipei will open four rapid testing stations in the Heping and Zhongxing branches of Taipei City Hospital, in West Garden Hospital, and at the Bopiliao Historic Block. The inspection is free, and the relevant medical information will not be reported to the police. Migrant workers without valid working documents will not be punished or deported if they take rapid COVID-19 tests and treatment during this period.
